EAST GRINSTEAD URBAN DISTRICT COUNCIL

REPORT OF THE MEDICAL OFFICER OF HEALTH FOR THE YEAR  
1966

TO THE CHAIRMAN AND MEMBERS OF THE EAST GRINSTEAD URBAN DISTRICT COUNCIL.

I have the honour to submit my Annual Report for the year 1966.

The Report is prepared as indicated in the Ministry of Health Circular No. 1/1967 dated January 1967.

The Crude Death Rate is 11.51 as compared with 13.6 for 1965.

The Standardised Death Rate is 8.29 compared with 11.7 for England and Wales. The Standardised Death Rate is obtained by the application of a 'comparability factor' making allowance for the age and sex distribution of the district for comparison with England and Wales as a whole.

The Infantile Mortality Rate is 6.8 compared with 13.15 for the previous year.

The Birth Rate is 17.21 compared with 18.3 in 1965.

The Standardised Birth Rate is 17.4 compared with 17.7 for England and Wales.

There were no deaths from Scarlet Fever, Typhoid Fever, Diphtheria, Whooping Cough or Measles.

There were no deaths amongst children under two years of age from Enteritis and none from maternal causes.

For the twentieth year no case of Diphtheria was notified.

No cases of Food Poisoning were notified during the year.

### COUNCIL HOUSING.

The following information is given by Mrs. O. Wren, the Housing Manager.

A new venture into 'industrialised' building was commenced in September of this year with the Sunnyside Estate comprising 30 three-bedroomed five-person houses, 16 three-bedroomed four-person houses and 16 one-bedroomed flats. These are built to Parker-Morris standards and will be ready for letting in 1967. All properties are provided with garage accommodation, either attached to or separate from the dwelling.

At the end of the year, Council owned accommodation consisted of 68 bed/sitting room flats, 107 one-bedroomed flats/bungalows, 25 prefabricated bungalows, 82 two-bedroomed flats, 8 two-bedroomed maisonettes, 155 two-bedroomed houses, 6 three-bedroomed flats, 28 three-bedroomed maisonettes, 510 three-bedroomed and 25 four bedroomed houses. There are 5 shops and 166 garages.

## REPAIRS AND MAINTENANCE.

Repairs and maintenance work carried out by the Council's direct labour force included 727 plumbing, 298 bricklaying and 471 carpentry jobs.

83 properties were decorated internally by direct labour and 77 houses were decorated externally by outside contract.

Free collections of excess household rubbish (old iron etc) continue to be made on the last Friday of each month and during the year such collections were made from 580 privately owned and Council owned properties.

## THE COUNCIL'S WAITING LIST.

At the end of the year, 190 applicants remained on the list who required 61 bed/sitting room flats, 53 one-bedroomed flats, 32 two-bedroomed and 44 three/four bedroomed accommodation.

During the year, lettings totalled 97 and of these four families were rehoused from unfit properties.

The number of Council tenants on the Waiting List for transfer to other types of accommodation totalled 113 and during the year 52 transfers were arranged.

## WELFARE.

The County Co-ordinating Committee met monthly in the Council Chamber and 26 families were assisted through the various Voluntary and Statutory Bodies whose representatives attend these meetings. The largest number of problems are caused directly or indirectly by lack of, or unsatisfactory housing.

The 'Voluntary' Laundry carried out household washing for 24 homes where elderly people have no relatives to assist them. There was a great need for 16 additional helpers and a circular letter was distributed in the district asking for such help.

At Christmas, over 500 homes were provided with extra comforts such as coal, groceries, sweets etc., through the local Rotary, Soroptomist and Youth Clubs and the Women's Royal Voluntary Service.

The Round Table Association again organised a successful 'Donkey Derby' held in the grounds of East Court and some of the proceeds were used to send 20 elderly people to the sea for a holiday.

The Women's Royal Voluntary Service has again rendered valuable assistance in many directions. The 'Meals on Wheels' and Luncheon Club have served 2,984 lunches, including 52 special Christmas dinners which were provided without charge. The meals are all cooked by the Women's Royal Voluntary Service in a kitchen which is adjoining the Club Room of St. Leonard's Hospital. All such meals are subsidised by the Council.

227 people were helped with clothing and 18 homes were provided with much needed furniture. New cushions were made for the geriatric patients in the Queen Victoria Hospital and for the Common Room of the Council's flats for retired and handicapped people. New curtains were also made for the Club Room at St. Leonard's Hospital. This Club Room is not only used for the Luncheon Club but is a meeting place for the 'Over Sixties' Club and other social events. It is also used as a workshop for retired people who enjoy the companionship which comes with carrying out part time work on club premises of this kind. A large number of pairs of trousers were sent to Aberfan.

#### CITIZENS' ADVICE BUREAU.

The following information is given by the Secretary of the Citizens' Advice Bureau.

The Citizens' Advice Bureau at Westminster Bank Chambers is open daily from Monday to Friday and family and personal problems form a major part of the work. Many elderly persons come to the Bureau for advice and help, and there are to date 111 persons of retirement age on the Chiropody Register enabling them to have treatment at a reduced rate. During 1966 in all 480 elderly people were helped regarding problems which beset them. It was noted with interest that many more young persons were willing to do some voluntary social service for the elderly, and wherever possible the Bureau put these young people in touch with those needing help such as gardening, house decorating and shopping etc.

The Bureau co-ordinates very closely with the statutory and voluntary bodies in the town, and the liaison is most beneficial to the efficient running of the Bureau.

## SOCIAL WELFARE LUNCH TIME SESSIONS.

With the object of fostering friendly acquaintance, and the interchange of information among those engaged in Social Welfare work, the East Grinstead Urban District Council agreed to sponsor a regular monthly meeting at East Court.

Invitations were sent to professional and voluntary workers, Doctors, Nurses, Clergymen and Head Teachers, who responded well.

The meetings have been held regularly on the first Friday of the month, and have been well attended. Each organisation represented has produced an excellent display of its activities, and these have been of great value to everyone present, promoting a better understanding of the services available.

Representatives of the following have attended:-

Local Clergy.  
British Red Cross (Sunshine Club).  
Child Guidance.  
Citizens' Advice Bureau.  
East Grinstead Association for the Disabled.  
East Grinstead Mental Health Association.

### WATER SUPPLY.

Water for the greater part of East Grinstead is supplied by the Mid-Sussex Water Company. A few houses on the Northern boundary at Felbridge are supplied by the East Surrey Water Company.

The Mid-Sussex Water Company have deep wells at Hackenden and Forest Row, and an additional supply is obtained from the reservoir of the Weir Wood Water Board. Placelands deep bore-hole is also available as an additional booster for Summer Supplies.

The raw water is aerated, subjected to sedimentation, mechanical filtration, automatic superchlorination, and finally before going into supply, to dechlorination to give a free residual of 0.1 p.p.m. of chlorine. A consistently safe and palatable water supply is thus assured.

Samples of water from each supply are regularly submitted to the Analytical Laboratory, Lewes by the Mid-Sussex Water Company for chemical and bacteriological examination. The quality of the water supply has been of a high standard.

Samples of treated water from each supply were tested on the 17th December 1962, and showed the following fluoride content:

Weir Wood Reservoir	0.0 ppm	Forest Row Pumping Station	.09 ppm
Placelands Deep Bore	.59 "	Hackenden Pumping Station	.02 "

It was not necessary to restrict the supply at any time throughout the year.

Approximately 5,327 dwelling houses have a piped water supply.

(V1)	94 lbs condemned as unfit for human consumption.
(V11)	Comments on poultry processing and inspection:-

Majority of poultry processing is carried on in 4 butchers shops (16,000 of total). The birds are previously hand picked by owners and consequently very few are unfit for human consumption. It is not practical with present legislation to ensure 100% inspection in the widely separated poultry processing establishments in this area, but agreement has been reached with owners to notify this Department should any reasonable doubt arise as to the fitness for human consumption of the poultry being processed.

The Council employ one full-time Rodent Officer on Pest Destruction.

During the year ended 31st December 1966, 1795 visits were made under the Prevention of Damage by Pests Act 1949, and of these, 623 were systematic surveys.

The Council also dealt with 27 wasps' nests and 23 complaints of other pests, including cockroaches, ants, moles, flies.

Regular inspections have been made at Eden Vale and Ashurst Wood Sewage Disposal Works, the refuse tip, housing estates and other Council properties. A 10% test of sewers was not considered necessary by the Ministry of Agriculture, Fisheries and Food during the year 1966.

A nominal charge for rodent and pest destruction is made to householders. Business premises are charged with the actual cost of materials and labour. No charge is made for subsequent inspection to ensure that the premises remain free from rats and mice.

The Council is prepared to enter into an annual contract to maintain business premises free from vermin.

#### REFUSE COLLECTION AND DISPOSAL.

This work is carried out by the Engineer and Surveyor's Department.

House refuse is collected weekly. Single large items are also collected on the last Friday of each month and a written request should be made to the Surveyor's Department. There is no charge made for this service.

Trade Refuse is collected at the request of the trader concerned, and a charge of 1/3d per bin on all bins in excess of one per week is made. A collection is also made of trade waste paper, cardboard, etc., again by request. Sacks are supplied by the Council to the trader and are emptied at a charge of 1/3d each, including the first sack.

Refuse is disposed of by tipping at Hill Place Farm, High Grove. Before being covered, newly-tipped refuse is treated with Malathion insecticide to prevent breeding of flies.

Frequent inspections of the tip are made to ascertain possible nuisance by rodents and flies.

#### PETROLEUM (REGULATION) ACTS 1928 and 1936.

58 premises were licensed to store petroleum spirit, and 147 visits were made under the Acts by the Public Health Inspectors.

## LABORATORY SERVICES

The services of the Public Health Laboratory at the Royal Sussex County Hospital, Brighton (telephone 63506) are available to this department and to Medical Practitioners in the district for the investigation of infectious disease.

The laboratory is in a position to accept specimens (faeces, sputa, throat swabs, etc.,) both for the diagnosis of individual cases and for the investigation of outbreaks (detection of carriers, reservoirs of infection, mode of spread, etc.,) Specimens should reach the laboratory by 4.30 p.m. on Weekdays, by 12.30 p.m., on Saturdays and by 11.30 a.m., on Sundays and Public Holidays.

Containers may be obtained from the laboratory or from this department, and specimens may be sent to the laboratory via the Southdown Motor Bus Company. Collections are made at the Brighton terminus at 2 p.m. and 4 p.m. (Mondays - Fridays) and at 12.30 p.m., on Saturdays. No collections are made on Sundays and Public Holidays.

Specimens for the Bacteriologist may be left at the Public Health Department, East Court, East Grinstead before 12.30 p.m., and will be placed on a 'bus in time to reach Brighton for the 4 p.m. collection.

The laboratory is open between the hours of 9.30 a.m., and 12 noon on every day of the year including Sundays and Public Holidays. Specimens which are so urgent that they have to be collected on those days can be accepted at the laboratory between 10 a.m., and 11.30 a.m.

Specimens which are received at the Brighton Terminus after the last daily collection has been made, are not picked up until the following day, unless prior notification is received at the laboratory that an urgent specimen is on its way which may not, or will not arrive in Brighton in time for the normal collection. In cases of extreme urgency arising after laboratory hours, special arrangements can be made by telephoning the Director of the Public Health Laboratory (Dr. J. E. Jameson, Brighton 56960) or the Chief Technician (Mr. N. W. Emberley, Rottingdean 2070).

The following prophylactic is held at the laboratory for issue free of charge to Medical Practitioners:

Gamma Globulin.

Supplies are restricted, and it is available only by consultation with the laboratory.

Other types of vaccine, anti-toxins and serums are not held, but information regarding them may be obtained from the Director.
